PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in MERN Stack development (MongoDB, Express.js, React.js, Node.js). Proficient in building full-stack web applications, RESTful APIs, and responsive UIs. Strong foundation in JavaScript, Python, and database management (MySQL, MongoDB). Quick learner with solid problem-solving skills seeking a MERN Stack Developer role to deliver scalable and high-performance web solutions.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design
Backend: Node.js, Express.js, REST APIs, MVC Architecture
Database: MongoDB, MySQL, Mongoose ODM
Programming: JavaScript, Python, Java, C
Tools & Platforms: Git, GitHub, VS Code, Postman, npm, Canva
Soft Skills: Analytical Thinking, Problem Solving, Collaboration, Adaptability, Time Management

PROJECTS & SEMINAR

MERN Stack E-Commerce / Full-Stack Web Application

Technologies: React.js, Node.js, Express.js, MongoDB, REST API

- Designed and developed a full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built RESTful APIs with Express.js and Node.js; connected to MongoDB using Mongoose for data persistence.
- Developed interactive and responsive frontend components using React.js with state management and hooks.
- Implemented user authentication and CRUD operations, demonstrating end-to-end web development skills.

AI-Powered Vehicle Diagnostic System

Technologies: Python, Flutter, MySQL, Machine Learning, Audio Signal Processing

- Built an AI system to analyze engine exhaust sounds using ML for real-time, non-invasive fault detection.
- Integrated Python backend with Flutter frontend and MySQL database for diagnostic data management.
- Applied audio signal processing techniques to classify engine health conditions accurately.

Hybrid Human-Artificial Intelligence

Seminar on how human cognition and AI integration enhances decision-making, automation, and intelligent systems.

INTERNSHIPS

MERN Stack Intern | Luminar Technolab (6 Months)

- Completed a 6-month intensive MERN Stack training and internship program at Luminar Technolab.
- Gained hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed and deployed REST APIs, managed component lifecycle in React, and worked with version control (Git).

Python & Machine Learning Intern | Revertech IT Solutions (1 Week)

- Completed internship focusing on Python programming fundamentals and core Machine Learning concepts.

EDUCATION

B.Tech in Computer Science and Engineering
College of Engineering, Trikaripur | APJ Abdul Kalam Technological University (KTU) | 2022 – 2026 | CGPA: 7.41

Higher Secondary Education (XII)
CPNS GHSS, Mathamangalam | Kerala DHSE | 2020 – 2022 | 96.6%

Secondary Education (X)
Mary Matha School Pilathara | CBSE | 2019 – 2020 | 90%

CERTIFICATIONS

MERN Stack Development Certificate — Luminar Technolab (6-Month Program)
React Fundamentals Workshop — ICT Academy of Kerala (Participant)
Python & Machine Learning — Revertech IT Solutions (Internship Certificate)
Self-Driving Electric Vehicles Workshop — Techmaghi / KSHITIJ, IIT Kharagpur (Participant)
